

TRUMAN'S JEW

By LEONARD DAVID STONE

WORLD PREMIERE READING

PROUDLY PRESENTED BY BETH ISRAEL SYNAGOGUE

Sparked decades ago by a telephone conversation between President Truman and the playwright, *Truman's Jew* explores the unimaginable post World War II journey taken by David K. Niles, a mysterious figure of the former Roosevelt administration. It's about his efforts to obtain President Truman's reluctant support of the Jews in camps throughout Europe. It's about the establishment of a Jewish homeland in Palestine, and the remarkable story leading up to the United Nations vote to partition the holy land. It's about America's recognition of the new State of Israel in spite of its own State Department's powerful objections.

A behind-the-scenes revelation based upon personal diaries, letters, and the Truman Library archives.
